

CLUBHOUSE TRAILERS

Moving the Marching Arts

2026

About Clubhouse

Clubhouse Trailer Company is the #1 provider of world-class, safe and efficient marching logistics solutions nationwide.

In 2008, the band director at Edmond Memorial High School asked band dad volunteer Jeff Hadley to figure out how to solve her growing program's transportation challenges.

The band dad embarked on a 2-year effort to evaluate, design and implement a solution that would consider all the risks around students and the loading, unloading, moving and storing more than \$1M in performance equipment. Clubhouse Trailer Company officially began in 2010 after the completion of their first trailer, Bulldog One. When Bulldog One was finished, it caught the attention of other band programs in Oklahoma and, eventually, other states. Trailer production quickly escalated to full-time, necessitating a 2019 company move to The Clubhouse's current location on the Edmond/Oklahoma City border. Clubhouse Trailer Company was named the overall Greater OKC Chamber Metro 50 winner for being the fastest growing, privately-held company in central Oklahoma in 2019. Our innovative products can be found in states from coast to coast and border to border, supporting high school and college marching bands, drum corps and more.

Why Us?

Clubhouse Trailer Company was created for bands, by band dads. We understand the core needs of bands at every level, and continue to innovate new solutions. Our trailers are customized for the needs of each individual program, while putting safety and efficiency at the forefront.

We also understand that every trailer is an investment into students and directors, which is why we create not only transportation solutions, but a community showpiece to show off your band.

Semis

Clubhouse Standard

Color Options

We paint all of our trailers before wrapping. This ensures a long life for the vinyl, and makes it easy to swap out graphics down the road. You name a color, we can make it happen!

Lighting

Upstairs and downstairs interior lighting and flood lights around the exterior come in every Clubhouse trailer. Powered by solar and a battery bank, you can quietly have power, even after a football game!

Second Floor

Every Clubhouse semi comes with a second floor that makes flow through the trailer seamless and efficient. Additional storage room for instruments and other equipment is a huge bonus!

Clubhouse Standard

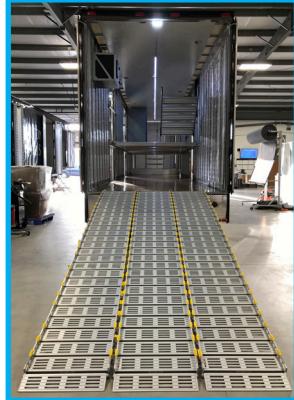

Your new trailer is your band's biggest billboard. Advertise your program and students with an impactful, custom designed, and professionally installed wrap. It will be sure to turn heads everywhere you go!

Vinyl Wraps

Rear Ramp

Our ramp options make sure you can load all your gear easily and safely. Cost effective and storage conscious, Roll-A-Ramps are a great solution for any trailer, at any time! Our powered ramp is also space saving, and sturdy for simple loading of even your heaviest pit equipment on no-slip tread.

Roll-A-Ramp

Electric Ramp

Customize It!

Drum Wall

Drum walls are custom built for your band. Every drumline is different, so we want to make sure your tenors, basses, and snares all have their own spot for traveling. No straps required!

Instrument Shelving

Load up all your instruments into the trailer without the need for straps

Entry Style

Split Entry

Our standard entry from the nose to the second floor makes traffic flow through the trailer easy for unloading uniforms and instruments, then getting out of the trailer through the back.

Flying Carpet

Need to maximize top level storage? Our flying carpet second floor lowers to the bottom level for loading equipment, then raises up to load underneath.

Bells & Whistles

Tubavator

Safely get sousaphones to the second level with our Tubavator. A quick snap and the press of a button will have tubas reaching new heights, and new storage!

Guard Drawers

Pack away all flags, sabers, and rifles in our pull-out belly box drawers.

Director's Perch

Give the perfect pre-show talk, or gather around for congratulations off the Director's Perch.

Awnings

Cool off or hide from the rain under trailer awnings.

Carrier Grid

No more awkward storage of drum carriers- hang them right by the drums for easy unloading and space-saving storage.

Uniform Racks

Perfectly organized uniforms, every time. Make your band's prep time seamless with numbered and slotted uniform racks.

Small Trailers

Fully Custom

Small trailers are fully customizable from the shell to the build-out. They are an excellent option for smaller bands, or as an accessory to a semi for additional storage. Interior heights, length, and hitch type are customizable to ensure you can fit everything that needs to travel with you!

*Standard Plywood
Interior*

*Interior
Height: 7-10'
Length: 24-40'
Second floor
Bumper Pull
Gooseneck*

*Upgraded Aluminum
Skinned Interior*

We understand that every program has unique needs, and will be happy to navigate the perfect small trailer for your band.

Semi Trailer Sourcing

Customer Provided

Already have a trailer? We can work with it! Customer provided trailers can be built out as minimally or extensive as you want, including our refurbishment process if desired.

Refurbished

A Clubhouse-spec'd Refurbished trailer is a great cost-effective solution to starting with a brand new trailer shell. The build out is identical to New and Customer Provided trailers, but given extra attention to recondition the trailer body and road-running gear, to serve faithfully for years to come.

New

New Trailers are picked up from the manufacturer in Kentucky and taken to paint, then arrives to the Clubhouse for a build out.

DIY Kits

Door Spans

Create a second floor across door ways with our innovative aluminum door span kits.

Lighting Kit

Shine bright with our interior & exterior lighting kits. Solar powered, or plug in to the tow vehicle, night-time loading made easy!

Rear & Side Entry Stairs

Move into and out of the trailer safely with our custom aluminum staircases.

Drum Carrier Storage Grid

Hang your carriers from the ceiling with our carrier grid!

Aluminum Loading Ramps

Load rolling equipment easily with high-grip, lightweight ramps.

Uniform Racks

Slotted, numbered uniform racks help keep uniforms in place, and easy to find. Available in multiple lengths.

DIY Wrap: Small Trailers

We can design and print your wrap for local install.
